

LARIMAR

CITY & RESORT

Paradise Towers

Tower 1

Paradise Towers

Paradise Towers development is located on the second row of our promenade, offering views of the city's sports facilities, the lake from the Breeze Towers promotion, and the rear gardens of Horizon View.

This implies that this project, not only because of its location but also due to its 1, 2, and 3-bedroom residences, will have disruptive prices in the LATAM market and can generate a high return on investment from the beginning.

Its star-shaped pool and its distinctive building with sleek and elegant lines make it a secure investment for tourism investors. It's truly a paradise for investment.
